Augur Consulting

**Tyler Duran:** Augur Consulting IT Portfolio Manager

- 8+ Years of Experience in Data Analytics; 4+ Years of Experience in DoD Cost Estimation
- Relational Data Models, LCCEs, IGCEs, Technology Business Management, ITIL
- BA in Economics, BA in Political Science & Government, USMC Veteran

**Tyler Duran** has supported the DoD in multiple facets for over 8 years; first as an ordnance systems technician in the United States Marine Corps, and later as the IT Portfolio Manager at Augur Consulting. Tyler's primary areas of support with Augur include Data Analytics/Visualization, Technology Business Management, Cost Estimating, ITIL, Performance Management, and Project Scheduling for a number of government clients across the DoD. Tyler has led development on a number of Program Lifecycle Cost Estimates, Business Case Analyses, relational data models, and other products aligned to data-driven decision support. Tyler holds B.A.'s in Economics and Political Science & Government and is an Associate Member of the Technology Business Management Council.

**Alexander Garner:** Augur Consulting Cost & Data Analyst

- 4+ Years of Experience in DoD Cost Estimation; 3+ Years of Experience in I.T. Program Management
- IGCEs, Software Development & Sustainment, Foreign Military Sales
- Professional Cost Estimator/Analyst, International Cost Estimating and Analysis Association
- BA in Physics

**Alexander Garner** has been with Augur Consulting since 2019. In this time, he has supported IT-centric acquisition programs of record for the Army and Navy, as well as Foreign Military Sales. Alexander primarily provides Cost, Schedule, and Analytics services in support of DoD programs related to Network Modernization, Cyber Security, Physical and Virtual Data Centers, Deployable Electronics, and Allied Information Systems. In this time, Alexander has developed and updated IGCEs and LCCEs, created defensible cost estimates to support POM requests, and provided data-driven recommendations to leadership via data visualization tools. Alexander is a D.C. Native, holds a PCE/A certification through ICEAA, and received a B.A. in Physics through Colorado College. For his team's work on the US Army's Defensive Cyber Operations, Alexander was recently awarded the ICEAA 2022 Cost Team of the Year.
